TITLE	PAGE NO
ABSTRACT	
1. INTRODUCTION	1-5
2. LITERATURE SURVEY	6-10
2.1 Problem Statemen	11
2.2 Objectives	11
3. MATERIAL AND METHODOLOGY	12-28
3.1 Material Selection	
3.1.1. Various Aluminum Alloy series	
3.1.2. Al 356 Alloy Series	
3.2 Fabrication Methods	
3.3 Fabrication Technique Selection	
3.4 Stir Casting	
3.4.1 Melting of Matrix Materials	
3.4.2 Mechanical Stirring	
3.4.3 Effect and optimization of stirring process parameters	
4. RESULTS	29-32
5. CONCLUSION	33
REFERENCES	34-35
